About DSNL

DSNL is India's largest Independent Integrated Conferencing provider offering a wide range of generic and industry specific conferencing solutions to over 2000 satisfied corporate customers worldwide.

Our audio conferencing system supports one-to-one, one-to-many, many-to-many and many-to-one communications. Such conferencing can be enabled for 3, 10, 100 or even over 5,000 participants at the same time. Our Qmulus¹⁰ platform is an innovative conference solution built by the experts in the telecom industry. This NEXT-GEN conference bridge is completely customizable to suit your specific business and communication requirements.

Our service portfolio includes voice blasts, voice drop services, proxy bridging solution, enterprise bridge solution, web conference services, video streaming and IR Calls. The latest innovation from DSNL is the MultiCall™ mobile app which enables dialing multiple contacts at once from the mobile device.

DSNL FACTS
